Our Affiliations:

MSOG is a member of **NGS**, passing benefits from both organizations to our members.

MSOG also supports the work of the **Massachusetts Genealogical Council** in the preservation and open access to records for all researchers.

MSOG is also a charter member of the **New England Regional Genealogical Consortium (NERGC)**. This group of as many as 30 New England Societies and Historical Groups puts on a biennial conference in New England that focuses on New England Research. The groups work together, with each organization heading up a single aspect of the 4-day, 1,000+ attendee event. The conferences occur in the odd numbered years, so please join us in April and May of 2021 as we offer the first VIRTUAL NERGC Conference! After that, we will be in Springfield, Massachusetts for our 2023 event the first weekend of May. Learn more about the event by visiting the Consortium's website (www.nergc.org) and/or signing up for the Consortium's E-zine with conference news and updates!
